THE GLOBE: The Official Paper of Congress.

PUBLISH new my annual Prospectus of The Dolly Globe, and The Congressional Globe and Appendia, to resided subscribers, and inform those who may desire to subscribe, that Congress will meet on the first Monday of next Doceacher, when I shall resume publishing the above named papers. They have been published so long, that most public men know their character, and therefore I doem it needless to give a minute account of the Zinio of matter they will contain.

The Daily Globs will centain a report of the Dehates in both branches of Congress as taken down by reporters, equal, at least to any corps of short hand writers in this, or in any other country. A majority of them will, each, be able to report, cerdulien, seu thousand words an hour, while the average number of words spoken by fluent apositiers rarely exceeds seven thousand five solden by fluent speakers rarely exceeds seven thousand unified words an hour. When the debates of a day do not send forty-five columns, they will appear in the Daily Gieb seat morning, which will contain, also, the news of the egether with such editorial articles as may be suggested by p

ing create.

The Congressional Globe and Appendix will contain a report of all the Debates in Congress, revised by the speakers, the discussives of the President of the United States, the Annual Reports of the Home of the Executive Departments, the Laws and passed during the essaica, and copious indexes to all. They will be printed on adouble royal sheet, in book form, royal quartosize, each number containing sixteen pages. The whole will make, it is believed, at least 2,600 pages. This is asknowledged to be the cheapest work ever sold in any country, whether a reprint or prunted from manuscript copy, taking for date the average number of words it contains.

The coming session, will, without doubt, be unusually intercating, because the debates will, in a great measure, he woon the policy of the President elect, and the Globe will be, as thus been for many years past, the only source from which full debates of Congress can be obtained

The Congressional Globe and Appendix pars free through the malts of the United States, as will be seen by reading the foliowing Joint Resolution passed by Congress the 6th of August, Signi Hessolution passed averyther for the distribution of the Joint Resolution passed providing for the distribution of the Laws of Congress and the Debates thereon. Upon what pretenses do we claim the right of aintaining forts and soldiers in the second States? 1. That we are the Government there. 2. That we own the property.
3. That we may enforce the laws. First. The contest then is between the two Governments; the Federal Government and the State, ernments; the Federal Government and the State, both claiming the same powers. The State Government (say in South Carolina) is an unquestioned government, the government is, to say the least, a questionalable government in that locality. The first has the express assent of the people; the general government has their express dissent. The State government is in possession of the disputed powers, and has now, for some time, exercised them. Which is de facto the Government?

Second. We own the property. Cornership of Second. We own the property. Ownership of property carries with it no title to govern. Ownership of property is always a right enjoyed subject

to the Government.

Third. That we may enforce the laws. Of what practical use is Major Anderson in enforceing the laws? Is he doing it? Can he do it? Is it his business there to enforce the laws? Has he the right to enforce the laws? If so, by what warrant? Is he United States Judge, Collector, Marshall District Attorney? These are they who suforce the United States laws. Soldiers are only their tools, whenever used. If he is not setually engaged in enforcing the laws and never has been (and we know he cannot, if he try, enforce the laws, because know he cannot, if he try, enforce the laws, because there is no one to tell him what law to enforce, M.
